

Become a grandmaster and learn the game of geniuses at St. Michael's School!

Nexplore Chess, in partnership with MM Chess Academy, introduces students to the game of chess and helps them develop critical thinking, strategy, and problem-solving skills. During the course, students practice chess basics, different opening strategies, and how to checkmate their opponent. Working through the Nexplore-exclusive workbook "How To Beat Your Friends in Chess," students move up "bracelets" just like karate belts, and each level unlocks new potential!
